- WHEREAS, energy efficiency makes our homes and workspaces healthier, safer, and more comfortable; and
- WHEREAS, cutting energy waste saves U.S. households billions of dollars on their utility bills every year, up to \$500 per household from appliance efficiency standards alone; and
- WHEREAS, improved energy codes for homes and commercial buildings also can significantly reduce utility costs and create new jobs, and the City of Boise supports energy efficiency for new buildings including the adoption of up-to-date energy conservation code;
- WHEREAS, the residents of Boise can continue to contribute to our energy efficiency efforts by learning about and participating in our Climate Action; and
- WHEREAS, a nationwide network of energy efficiency groups and partners has designated the first Wednesday in October as national annual Energy Efficiency Day; and
